Norina Fernandes, Principal, Lilavatibai Podar School in Santacruz said that students across streams have done well this year with a large number of students falling in the 90 per cent and above category. "Students have done exceptionally well in ICSE and across streams in ISC she added.

*(With inputs from Aishwarya Kulkarni and Vanessa Viegas)*

Students of Lilavatibai Podar High School celebrate with their Principal, after the results.

**Svojas Pitale: 70%,**  
Lilavatibai Podar school

"I was diagnosed with type 1 diabetes at the age of 5. Because of my condition, I feel dizzy, get stomach cramps and my sugar levels fluctuate. During my preparations, my sugar levels used to drop and I needed to eat at an interval of 5 minutes. I plan to pursue MBBS and MD in neurology."

### Diabetes didn't stop him from writing the exams

**MUMBAI :** His fluctuating sugar levels made Svojas Pitale's parents worry about his exams. Svojas, a type-1 Diabetes patient, constantly felt dizzy or tired and found it hard to fall asleep.

"Balancing sugar levels was crucial during his exams," said his mother Yadnya. "He had to be injected insulin every time he ate." But Svojas, a student of Lilavatibai Podar High School, Santacruz, fought through it to score 72.4% in the ICSE exams."
